KEWIN, THE JEWELER AND OPTICIAN,
No., 6 East First Street.

—Mrs. Finley McMartin is recovering from a severe illness.

—Mrs. F. K. Orvis is entertaining Mrs. A. Heile of Chicago.

—Policeman John Winters is again on duty in Dement-town.

—Dr. B. D. Vaughn was called to Chicago by telegram today.

—Attornies C. W. Wooster and S. B Pool are up from Amboy.

—Roy Houston will spend tomorrow in Sterling with friends.

—Ernest Farrand is assisting in O. H. Brown & Co's on Saturdays.

—Sheriff Stainbrook accompanied prisoner Vaughn to Joliet today

—Joseph Hayden is down from Ishpeming, Mich, on a short visit.

—Mrs. James Duffy, of the C. & N. W. depot Transient House, is very ill.

—Miss Edna Depuy, of Nachusa, was assisting in S G Austin & Co's today.

—H. L. Coffey and sister drove to Ashton and Franklin Grove on business yesterday.

—Miss Bessie Pitcher went to Warren yesterday on a short visit and will return Monday.

—A C. & N. W. baggage check was left by the owner at O. H. Brown's store yesterday.

—J. C. Flint and wife have returned from a visit to the Midwinter Fair at San Francisco.

—Will E. Bartels, a favorite student at the college, has returned to his home at Tomah, Wis.

—Dr. Leslie Hopkins, dentist, of Clinton, Ia., was here yesterday with thoughts of locating in Dixon,

—H. Smith, of Paul G. Lord's shop, is having a handsome dwelling erected on North Ottawa avenue.

—M. Meyer, of the Palace Tailoring House, has returned from a couple of days business trip in Chicago.

—Dr. D. F. Beacom and wife, are in our city, the guests of his brother, Prof. W. H. Beacom and wife.

—C. Bodkin, of Ohio, is in our city Mr. Bodkin makes a business of tiling and all kinds of excavating.

—Beans, don't have beans, but go to the Lutheran church, Tuesday evening next, for a good warm Chicken Pie supper.

—News comes from Chester of the birth to Mr. and Mrs Oral Havil of a boy. Grandma Brautigam now understands why she was sent for.

—Mrs. B. J. Grant while visiting in Willow Creek this week, had the uncommon pleasure of seeing her great great grand niece and nephew.

—Five barrels of whiskey just received at Lew Preston's; but none of it is for minors. One barrel on tap was exhibited at the World's Fair and took first prize.

—Benevolent Camp 841 M. W. of A. will hold regular meeting Monday night, May 7, at eight o'clock. All members are requested to be present. Adoption and other important work.

—Now comes word that Antoine Hermos, of Hamilton township, recently placed his right hand on top of a post his companion was driving with a sledge hammer, and the hand is ruined.

—A private letter from Lew Shaw, now in Chicago, states that himself and wife, champion billiard players of the world, will give exhibition plays at the opera house in Dixon at an early date

—Mrs. Fred Clarke went east this morning to attend the session at Philadelphia of the International Federation of Woman's Clubs. Before her return she will attend to some business in New York.

—Beginning with Monday the Improved Order of Red Men of the state will have possession of our city for three days. It would be quite appropriate for the citizens to decorate their places for the occasion.

—Edwin FitzPatrick, having completed his course of study at the Dixon Business University, departed for his home in Cairo, Ill., this morning. Ed. has made many friends in our city who will regret his departure. We wish the young man success.

—A pine tree on what is known as the Father True place, near the mound occupied by Bruce Seigler, was struck by lightning during the storm Tuesday and shattered to kindling wood. Mr. Seigler, who was on a porch near by, received a slight shock.

—A very pleasant suprise party was given last evening to Miss Nellie Kaiser at her mother's home on Water street, by her many friends, who all thoroughly enjoyed themselves, playing games, dancing and partaking of the refreshments that were served.

—Miss Jessie Harding, who completes a three years course at the Chicago conservatory on the 23rd of May, has been engaged by the faculty of that school as Miss Anna Morgan's assistant in her department of "Elocution, Physical Culture and General Dramatic Expression."

—The commencement exercises of the class of '94 of the Dixon High School will be held in the opera house, Monday evening, June 4th. The class is comprised of Annie Steel, Edna Carpenter, John Buel Crabtree, Mary Elizabeth Cahill, Della Grace Randolph, Frederic Dudley Dana, Nancy Thurber Hunt, Aretta Belle Slothower and William Loran Frye.

—Two women took sixty chickens to market. One woman sold her thirty chickens at the rate of three for $1. The other woman sold her chickens at the rate of two for $1. The merchant said: "Two chickens for $1 and three chickens for $1 equals five chickens for $2. Five is in sixty twelve times, and twice twelve is twenty-four. Here is $24; divide it to suit yourselves." The women complain that the merchant cheated them out of a dollar, but are unable to tell how. Will some of our readers explain the merchant's mistake, if he made one.

### The City Council Meeting.

Most of the time of the city council last evening was occupied in discussing the matter of proposed electric street railway; though the application of George Schorr for saloon license was granted, petitions for several short pieces of sidewalk were favorably considered, a bridge was authorized to be constructed across the slough on Seventh street, between Galena and Ottawa avenues; J. E. Winters was retained as policeman in Dement-town and the usual bills were audited and allowed.

Mayor Palmer and Aldermen Keyes, Rosbrook, Gonnerman, Neighbour, McKenney, Plein and Anderson were present; Alderman Parsons, being away from home, was the only councilman absent.

Mr. Jason C. Ayres presented, and on request read a copy of the ordinance the passage of which by the city is requested by the Rock River Electric R'y Company. The ordinance confers the right of way for twenty years to maintain and operate the road over the lines and streets recently mentioned in THE TELEGRAPH. The poles to be placed so as not to unnecessarily obstruct business traffic, and the wire to be at least twenty feet above the tracks. The tracks to be laid in the centre of the streets, except in the case of double tracks, then not to be laid within six feet of the curb line. The company to keep in repair such portions of streets as lie within the rails of its tracks, and replace planking or crossing that may be removed in construction. No cars to remain on street crossings so as to obstruct travel; but cars to be entitled to the track in preference of teams or vehicles. Rates of fare to be fixed at 5 cents. On all bridges, viaducts and paved streets the top surface of the rails shall not be more than one half inch above the surface of the floor or pavement. The Company forfeits its franchise unless the work of construction is commenced on or before September 30, 1894, and unless within one year from the passage of the ordinance its cars are in operation on one track on all the lines described, except on Ravine avenue, the Grand Detour road and on Fellows street east from Galena avenue.

We have given very briefly an outline of the principal features of the ordinance, which will probably be changed somewhat before it is passed and published in full. Various points were discussed last evening and more fully explained before a large number of our citizens who crowded the council room. The ordinance indefinitely says that the track shall be laid with steel rails of approved pattern. It was explained that the intention was to use T rails and not the ordinary tram rail. It was stated that no freight cars would be run through the business or principal streets of the city, and with regard to crossing the bridge it was declared to be the opinion of the engineer that it would be impractical to lay the track and operate the cars on that part of the structure outside the girders now used for foot travel.

The matter was referred to the sidewalk committee to confer with Mr. Ayres, and the council adjourned until Friday evening, May 18th, when the matter will be again taken up. In the meantime we hope it will be thoroughly investigated and intelligently discussed in all its bearings by those who have been placed in important public positions to guard well the people's interests. While we are thoroughly in favor of every improvement that will advance the city's real prosperity, we recognize the fact that no corporation of private interests is actuated by purely philanthropic motives, and no electric railroad will be built in Dixon solely for Dixon's benefit. We of course want the railway, and expect to concede some important privileges in order to get it; but we do not want to pay too dear for our whistle. The use of our bridge, as proposed, will incur some expense and will unavoidably result in detriment to our trade from outlying sections north of us. It will clearly increase the liability to serious accident. These and other points should—and doubtless will—be taken into consideration and have due weight in determining the final action of the Council.

### Band Concert.

North Dixon in the vicinity of Oak Park had a Fourth of July appearance last evening. The residents on the four sides of the park, and for considerable distance north and south on North Galena avenue hung festoons of Chinese lanterns about their dwellings and over their lawns, in honor of the visit of the Dixon Factory Band. At an early hour the beautiful park was filled and surrounded by people; many carriages and hacks were on the driveways. The music was well worth the attention of the crowd and and was fully appreciated. In fact, the benefit of these delighful concerts to the people is inestimable and the band boys should get all the encouragement they ask. If every person there last night had been charged twenty-five cents the cost of having these concerts weekly through the summer would be paid. It is the intention of the managers or the band to solicit funds to pay the expenses of a series of similar concerts for the summer months, and they should meet with no refusals.

### A Grewsome Relic.

Howard Johnson, of Palmyra, has lately received, through the mail, the pistol with which his brother, Theodore, was killed by Fred Sawyer nearly twenty-four years since. The event occurred four miles south of Auroa, Hamilton county, Neb. The country was then an almost unbroken prairie, with no house nearer than fifteen miles from where the body was found. The pistol was sent by George F. Dickson, of Clay Centre, Neb, by whom it was found and who was sheriff of Hamilton county at the time of the murder. After retaining possession of the pistol for a number of years, Mr. Dickson loaned it to a deputy sheriff, by whom it was re-loaned and lost sight of for many years having been mislaid in an old desk. Upon regaining possession again Mr. Dickson communicated with C. C. Burr, of Lincoln, Neb., who was States Attorney at the time of the trial, and secured Mr. Johnson's address. It is a small sized seven-shooter, which belonged to the deceased, and was found near the body, close by the California freight road.

## WE HAVE FOR SALE

28 lots in HIGHLAND PARK ADDITION TO DIXON; the prices range from $200.00 to $400.00. We will sell them for cash or on the MONTHLY PAYMENT PLAN, as may be desired. Be sure to see these lots. ## TACTICS OF A MOB.

How the Poles in the Coke Region Go to War.

WOMEN AND CHILDREN IN FRONT,

**And the "Enemy" Composed of Only Three Men, Who Are Badly Used Up—Seven of the Rioters Shot, Two Being Polish Amazons, Who Show Great Ferocity—Affray at Mountain Iron, Mich., in Which a Striker Is Fatally Wounded—Militia Ordered Out.**

SCOTTDALE, Pa., May 5.—The north end of the Connelsville coke region is in a fever of fear, excitement and anxiety. The terrible work at the Painter plant of the McClure company, bad as it was in itself, is feared still more as foreshadowing the beginning of times and conditions that are levitable unless the strike is speedily settled. The battle yesterday was between striking Poles, a small number of deputies, and a comparatively few of the men at work at the Painter plant. Deputy Sheriff Sandford White and Chief Clerk Ewing B. Roddy were terribly beaten, and are in a critical condition.

**Five Men and Two Women Shot.**

Five men and two women on the strikers' side were shot, and two of the men dangerously wounded. Fifty-six of the rioters have been arrested and are now confined in the Uniontown jail. The Painter plant was closed down by the strikers on the 24th inst., and was idle until Wednesday of this week. Early yesterday morning Joe Sconesky's wife went about to the other houses and got the women of the striking Poles to join her in a proposed raid on the plant. About 6 o'clock she had 150 men, women and children in the ranks ready for a raid.

**The Men Remained in the Rear.**

The men remained in the rear, and the women and children, led by Mrs. Sconesky, made a rush for the coke yard. This region has seen many savage affairs in which women unsexed themselves by deeds of cruel violence, but the old-timers say that never before has there been seen such a spectacle as this. Every person in the assaulting party had some sort of striking weapon. Even children, screaming shrilly, flourished sticks suited to their size. Many of the women bore axes and some of the men of the mob carried ball bats and hatchets. Deputy White was the first man at the yard on whom a blow fell.

**Three Against the Whole Mob.**

Mrs. Sconesky had a ball club and her husband wielded an axe. White went down before the front rank of the raiders. Roddy and a clerk named James Tarr saw him fall. In the face of the fearful odds these two men sprang to his rescue and fought their way to his side. Then the frantic raiders fell upon Tarr and Roddy as White struggled to his feet, blinded with blood. The three men fought desperately, but the odds were too great, and finally all were down, under the feet of the mob. Roddy was beaten and cut about the head almost as badly as White.

**How the Rioters Got Hurt.**

Of course, while the mob was doing this brutal work the assaulted men were not idle. They began shooting as soon as possible and their bullets brought down most of the seven rioters hurt. As the mob got all three down under foot the deputies arrived and did some more shooting to drive off the rioters, who fled at the approach of the officers, and the battle was over with the result above mentioned.

**Ten Children Taken to Jail.**

Sixty-three rioters, among them twelve women and ten children, have been taken to jail, and warrants for fifty others have been sworn out, but the men cannot now be found. The Painter plant is in charge of a large number of deputies and the company is determined to work it.

### PROMPT ACTION PREVENTS A RIOT.

**The Mob Faced by a Chance for a Fight Concludes to Wait.**

CONNELLSVILLE, Pa., May 5.—The prompt action of coal companies in arming a large force of men at the works in the Vanderbilt region prevented a riot there yesterday. The mob that closed down the Fort Hill works remained in camp all night preparing to attack Paul and Nellie, but when they learned that an army of deputies was patrolling the works they concluded to delay the attack and dispersed. The leaders say the strikers will assemble again as soon as the deputies are withdrawn.

The strikers have adopted a code of signals by which they can be collected at any point in that vicinity on short notice, but the operators say they will keep the deputies on guard as long as there is any danger of violence. The men at Fort Hill who were forced out returned to work immediately after the mob had dispersed, and are working under the protection of fifty Winchesters. The formidable display of guns at Moyer also discouraged the mob of strikers there and they dispersed.

The leaders had promised to remain in camp till the Moyer plant closed down, but they knew a conflict with the deputies, numbering eighty, would prove disastrous, and concluded to wait. At no time since the strike was inaugurated has violence been so imminent as at present. The wholesale evictions contemplated next week and the attempt by the leading companies to resume are sure to result in violence. The leading companies say they will start unless the Rainy works are closed down.

Rainy is securing all the large contracts at handsome figures and the other companies will not stand idly by and see themselves ruled out of the market. Two of the leading companies announce that they will start up all their works, if in doing so they have to deputize half their men and ask for protection from the state troops.

### BLOODSHED AT MOUNTAIN IRON.

**A Marshal Shoots a Striker and the Mob Gets Under Way.**

DULUTH, Minn., May 5.—Marshal Al Free tried to suppress a slight disturbance among some striking miners at Mountain Iron last evening, when Mat Matson threatened him with a revolver. Free promptly shot him twice in the abdomen and he will probably die. Word of the affair was sent to the strikers at Virginia and a mob of 1,200 started for Mountain Iron with the avowed intention of lynching Free. Sheriff Sharvey ordered the militia out and they took charge of Free and removed him from the town.

When the mob at Virginia heard the news of the shooting it started on foot for Mountain Iron, wild with rage and thursting for Marshal Free's blood. Ten minutes afterward a train left with the sheriff and militia, but the mob had only three miles to go and the train seventeen with a rough track. The train beat the mob by ten minutes and arrived here at midnight with Free aboard. Adjutant Muehlberg called out company H to go to Mountain Iron and it left at midnight. The strikers have cut the telegraph wire and there is no other communication if further hostilities follow.

There is great excitement in Mountain Iron and bloodshed was feared when the mob arrived, as the strikers are much inflamed against Free. They were very indignant over Free's escape, but up to 2 o'clock had done no further damage.

The mob has retired from Iron Mountain and camped in the woods half a mile from town. The citizens have been terrorized by shooting near the mob's camp and fear an attack.

### SMALLER VOLUME OF TRADE.

**Two Hundred and Fifteen Thousand Idle Industrial Workers.**

NEW YORK, May 5.—Bradstreets' review of the state of trade says: The movement of general merchandise throughout the country is smaller in volume. Spring trade is finished and orders for fall delivery are, with few exceptions, not meeting expectations. Jobbers in leading lines at almost all the larger cities report sales almost without exception as of a hand-to-mouth desctiption. The extension of the coal and coke strike, accompanied by riots at Cleveland and Mesaba, has emphasized the depression. The industrial situation, therefore, has not improved.

Strikes of iron-ore miners, among building trades, with an extension of the coal miners' strike and the almost total cessation of operations in the coke regions, have swelled the total number of idle industrial workers to fully 215,000. Shut downs of industrial concerns dependent on coke or soft coal for fuel are increasing, notwithstanding an attempt of coal operatives and operators to get together to arrange a basis of settlement. The prices movement tips the scales with Indian corn, oats, cotton, coffee and refined sugar all lower, and wool and some varieties of woolens and cotton goods heavy with a marked tendency of quotations to weaken.

Wheat scored its fifth or sixth lowest price on record during the crop year—60¼ cents at New York. A relatively favorable industrial report comes from Detroit, where there are fewer unemployed. Another contrast is seen in the New England shoe factories running on short time, while at St. Louis four months' shipments are in excess of last year. Transactions in wool have slackened and prices of some grades are weaker.

### ROYAL RECEPTION FOR WILLIE.

**Col. Breckinridge's Friends Turn Out in Force at Lexington.**

LEXINGTON, Ky., May 5.—Colonel Breckinridge arrived here last night and the reception was a royal one. Five hundred of his friends met him at the train and made the air resound with their cheers for the white-haired prodigal. Every man in the crowd insisted on shaking hands with him and it was with difficulty that he reached the Phœnix hotel. Every walk in life was represented in the gathering.

Everywhere were seen the Breckinridge campaign buttons, which are like the Cleveland and Harrison buttons, and bear an excellent likeness of the famous orator. The Breckinridge people are in high feather at the result of the cordial reception tendered their favorite. The campaign will be formally opened today when Breckinridge will deliver his long-looked for speech.

**Success of the "Crusaders."**

ST. LOUIS, May 5.—The reports received from the mining districts of Illinois in the vicinity of this city show that but six mines are now being operated—Staunton No. 6, Clyde, Gillespie, Sandoval, Odin and Bunker Hill. The net result of the crusade of strikers Thursday was the stopping of the work in the Staunton No. 5, Breese, Trenton, Troy, Brookside, Hillsboro, Coffee and Carlinville mines. The roads running through southwestern Illinois are said to be on the anxious bench for supplies and just how much coal they will "seize", it will take months of "tracing" to ascertain.

**Great Northern Strikers Surprised.**

ST. CLOUD, Minn., May 5.—An order has been received from General Manager Case, of the Great Northern, that no employes arrested for maliciously injuring the company's property, abandoning trains between stations, wilfully imperilling the lives of the passengers on the company's trains, or aiding in delaying the mails in the late strike could go to work until their cases are thoroughly investigated, but that the balance of the men could return to work without prejudice. This order staggered the men, as they understood that all the strikers were to go back.

**Floersheim Thinks It Will Fail.**

PITTSBURG, May 5.—Henry Floersheim and Richard Bunton, representing two of the largest railroad and river coal companies in this district, gave it as their opinion that the conference called for May 15 at Cleveland to settle the great coal strike would prove a failure. Floersheim said that the Pittsburg and Chicago and New York and Cleveland coal companies, which were largely responsible for rate-cutting, had not been consulted in regard to the matter. Both gentlemen said the conference was not representative.

**The American Protectives.**

DES MOINES, May 5.—The American Protective Supreme council is warmly debating the president's address which takes the side of the radical element, going so far as to advocate the old Know Nothing doctrine of twenty-one years' residence for foreigners before they can vote. The action cutting loose from ex-Roman Catholic priests has been sustained in spite of the protests of ex-Priest McNamara. The proper committee is formulating a platform which will be the platform of the whole A. P. A. body.

**Scores on the Diamond.**

CHICAGO, May 5.—Chicago's aggregation of base ball colts has won another game, and there is a cautious smile on the face of the Chicago crank. Following are the League scores: At Cleveland—Louisville 4, Cleveland 8; at Pittsburg—St. Louis 9, Pittsburg 10; at New York—Philadelphia 4, New York 6; at Baltimore—Brooklyn 5, Baltimore 12; at Washington—Boston 15, Washington 5; at Chicago—Cincinnati 3, Chicago 6.

**Died at the Age of 107.**

ST. PAUL, May 5.—Mrs. Dodson, colored, familiarly known as "Aunty Dodson," died in this city aged at least 107 years. There are records showing that she was 107 and very probably older. She remembered distinctly the inauguration of President John Adams in 1797, and also events occurring in 1800.

## UPON THEIR HONOR.

Members of Congress Report Days of Absence

WITH MANY AND VARIED EXCUSES,

**None of Which, However, Will Figure in Their Pay Checks—Crisp Will Not "Go Behind the Returns" for Fear of Causing Odious Inquisition—Report Against the "Docking" Law—Commonwealers in Court—Report on Judge Jenkins.**

WASHINGTON, May 5.—Congressional salaries for the month of April became due yesterday, so that members had their first experience with the new procedure of "docking" for absenteeism. Up to Thursday night 213 members had filed their certificates showing the number of days, if any, they had been absent. Yesterday about fifty more certificates were put in, leaving about 100 members unaccounted for. In the certificates thus far received six days is the greatest number of absent days admitted by any member. The "dockage" for this at $13.698 per day is $82.19. The great majority of the members certify that they have not been absent at all, and the most of those who certify absence limit the period to one or two days. At this rate the total deductions will be small.

**Puts Them on Their Honor.**

The congressmen are showing much uneasiness in making out the certificates, as there is nothing beyond their word of honor to show how many days they have been absent. They feel reluctant to surrender a part of their salary and yet are bound in honor to report the days for which deduction should be made. Some of the certificates were written over on both sides with apologies and excuses for absence, members hoping in that way to secure their full pay and yet admit absence. The sergeant-at-arms notes only the specific statements of absence and does not attempt to pass judicially on the long and labored excuses. The only excuse recognized by law is sickness.

**Not Going Behind the Returns.**

It is said that the certificates of one entire state delegation show not a day of absence, although three of the delegation have been absent a considerable part of the entire month, and none of them claimed to be sick. Care is being taken to keep from publication the individual names of members docked, as it might cause questions to be raised as to the accuracy of the amount deducted. Speaker Crisp and Sergeant-at-Arms Snow are not going back of the face of the returns made by each member. Many of the certificates with the doubtful excuses were submitted to the first comptroller of the treasury.

**Law Repealed by Implication.**

Representative Stone, of Pennsylvania, has submitted to the house a minority report on the question submitted by the judiciary committee as to the "docking" of salaries of members. The majority report upheld the old law under which deductions for absenteeism are now being made. But Stone's report, concurred in by Childs and Updegraff, reviews the laws bearing on congressional salaries and concludes that section 40, under which deductions are made, has been repealed by implication.

**Peculiar View of the Case.**

It is further contended that even if section 40 is still in force the deductions shall be on a basis of a congressional salary of $3,000 per year which was the amount paid when section 40 was enacted. In conclusion the report says: "We, therefore, respectfully submit that the sergeant-at-arms has no legal authority to withhold from the members any portion of their salary on account of absence."

### COMMONWEAL LEADERS IN COURT.

**The Fight To Be Made on the "Right of Peaceable Assembly."**

WASHINGTON, May 5.—The commonweal leaders were before the public once more yesterday when they were before Judge Miller's police court for violating the District laws. "Marshal" Browne was a little uplifted by his prominence and at one time put in a word of comment regarding the proceedings. Judge Miller, who is a hardheaded magistrate, exhibits a tendency to treat the titled commonwealers like other defendants and threatened to have the marshal consigned to the dock. There was an audience gathered which filled the court room and included most of the Populist leaders as well as other members of congress.

Senator Allen, while disclaiming sympathy with what he called the visionary ideas of Coxey, made a strong plea for the constitutional rights of citizens to peaceably assemble and petition congress. Judge Miller refused a separate trial for Coxey, so the three defendants are in one boat. The plea of "right of peaceable assembly" will be the one the case will be fought over, and if Coxey is as good as his reported word he will take the matter to the supreme court to find whether there is a piece of public property in the country that can be shut to a popular assemblage. The trial is continuing today.

### REPORT ON JUDGE JENKINS.

**Boatner's Committee Condemns the Jurist, but Deprecates Impeachment.**

WASHINGTON, May 5.—The report of the Democratic members of the sub-committee of the house judiciary committee—Boatner and Terry, of Louisiana and Arkansas, respectively—was presented to the full committee and discussed for two hours. Final action is expected next Tuesday. In brief the report condemns Judge Jenkins, intimating that he erred through ignorance of the spirit of the law, and is therefore not subject to impeachment, which is not recommended. The report held that workmen have a right to "strike" for higher wages, to coerce their employers by combination to pay them better, and that these measures are perfectly lawful.

The judge's injunction was a "gross abuse of power supported by neither reason nor authority." After elaborating upon this point the committee goes into a general attack upon United States courts for their proceedings in receivership cases and the use of contempt proceedings, which are called upon, it is urged, to take the place of state laws. The declaring in contempt any one who interferes with the running of trains, for instance, in a strike against a road in the hands of a court is opposed by the report on the ground that such interference is a violation of the laws of the state and should be left to the state.

The report says there is no proof that a strike was contemplated in the case under review, and declares that the right to strike is absolute and that the inconvenience to the public caused by strikes cannot be considered. The "strike" referred to is, however, only the quitting work by the men in concert. Where the strikers interfere with trains, intimidate those who want to work, etc., these are offences that are punishable by the state.

It is recommended that the powers of the United States courts be restricted by laws that will cover such cases as this, and also in regard to contempt proceedings and receiverships, which are frequently, the report says, only a means of avoiding pursuit of creditors and enforcement of lawful obligations.

### RIDER TO REPEAL A BOUNTY LAW.

**Ways and Means Committee Directed to Report the Same.**

WASHINGTON, May 5.—Dockery has introduced, and it has been referred to the house rules committee, a resolution providing that "the committee on ways and means is hereby directed to prepare and report to the house for consideration in connection with the legislative, executive and judicial appropriation bill, when the same shall be reported at this session," an amendment repealing the provision of the McKinley law authorizing the payment of bounties to domestic sugar growers.

**Demand of Montana Coxeyites.**

WASHINGTON, May 5.—Senator Power presented a petition adopted at a mass meeting in Butte, Mont., declaring in favor of the organization of "a home guard of the Coxey army to assist in case necessity demands," and calling on the Montana congressional delegation to demand that all further interference with the forward march of the Coxey army be discontinued.

**Nearly All the Chinese Registered.**

WASHINGTON, May 5.—Thursday was the last day for registration under the Chinese exclusion act and the amendments thereto. It is learned that there has been a general compliance with the law in all parts of the country. According to the census returns of 1890 there were approximately 107,500 Chinese in this country and it is believed that about this number has registered.

**Doings in the National Congress.**

WASHINGTON, May 5.—Quay gave another chapter of his tariff serial, and then the senate went into executive session and when the doors reopened adjourned.

The house, in committee of the whole, considered the river and harbor bill, without important action. An evening session was held for consideration of pensions and the house adjourned to Monday.

**Condition of Coxey's Army.**

WASHINGTON, May 5.—Frequent showers of rain dampen to a considerable extent the ardor and enthusiasm of the army of the commonweal. The men are not adequately protected against the weather and present a very forlorn and dejected appearance. The rations furnished are simple and limited.

**Editor Hatton's Will.**

WASHINGTON, May 5.—By the will of the late Frank Hatton, just filed, all his property, including his interest in the Washington Post, is left to his wife, Lizzie S. Hatton.

### AMERICAN IDEA DEFINED.

**Judge Cooley Tells Just What Uncle Sam's Government Is.**

ANN ARBOR, Mich., May 5.—Judge Thomas M. Cooley delivered an address to the university students on "Free Institutions," which was virtually a discussion of the Coxey movement from a constitutional standpoint. The judge spoke first of the nature of our institutions and government. It is a representative and not democratic government. The duty of the citizen is to vote for a representative and when he has done that he almost entirely ceases to be a political power.

Suppose a large class of people become dissatisfied with the conduct of the government and 10,000 arise in each state and march on Washington to demand that eight hours be a day's labor, or that the national government improve the roads or issue more money. They claim to voice the demands of the people; but they represent but a fraction of the people. The function of the citizen is to vote. The so-called army has no power to coerce a single representative at the seat of government.

The petitioner cannot go to congress in person with his petition. According to the principles of our government it must be presented by the representative of the people. When each man attempts to determine the law there is a state of anarchy. There is one law which the people created, and that is the constitution. The present Coxey movement, said the judge, may be a farce, but it looks to a revolution which cannot be accomplished short of civil war.

**Kelly Troubles Des Moines Greatly.**

DES MOINES, Ia., May 5.—The Kelly army closed its sixth day in camp in this city last night. The people of Des Moines who have been supplying them with provisions and clothing and bedding have become very much discouraged over the disposition of the army to do nothing for itself. The camp is dirty, the men filthy and there is fear of contagious disease breaking out. The men do nothing but be around in the sun. Kelly talked of marching eastward, but is fearful of mutiny. He is also talking of building boats and floating down the river. What is to be down is bothering the citizens greatly. The only problem now discussed is how to get rid of Kelly and his horde.

**Fighting the Eight-Hour Law.**

MOUNT VERNON, Ills., May 5.—The cases involving the constitutionality of the Illinois eight-hour law which was passed by the general assembly June 17, 1893, were argued before the supreme court. The plaintiffs in error were prosecuted and convicted in a Chicago criminal court for the violation in section 5 of the act of the general assembly which provides that "no female shall be employed in any factory or workshop more than eight hours in any one day or forty-eight hours in any one week." In each case it was asserted that that act was unconstitutional because it places unwarranted restrictions upon the individual's right to contract.

**Warned the Workmen to Quit.**

PEORIA, Ills., May 5.—The men at Little's mine have been warned to quit and the Bismarck miners near Hollis, and those of a mine near Pekin will forced out. This will complete the list for Peoria and Tazewell counties.

**Another B. and L. Insolvency.**

SPRINGFIELD, Ills., May 5.—The auditor of public accounts finds the Rantoul Building and Loan association insolvent to the amount of $11,000, and Reid Allison has been appointed receiver by the court at Rantoul.

## ICY DEVASTATION.

Terrible Storm Sweeps Over Part of Kansas.

A WATERSPOUT FLOODS THE EARTH

**The Water Freezes as It Falls and Bombards the Region With Ice-Nuggets a Foot in Circumference—Crops Ruined, Cattle Killed and Many Persons Injured—Details Meagre—Dire Peril of Tourists in an Austrian Cave.**

TOPEKA, Kan., May 5.—A special to The Capital from Reading, Kas., says: "The central portion of Lyon county and the southern section of Osage county were visited by a terrible storm last night. A waterspout broke, flooding the country and ruining crops. The devastation of the water was increased by the unparalleled ice storm. Ice nuggets formed as it fell twelve inches in circumference that killed cattle and ruined crops. In this town every window pane was shattered and the same destruction is reported from Olivet, east of here, in Osage county. It is impossible now to even estimate the amount of damage done.

**Wires Down and No Particulars.**

Reports have been received to the effect that many persons have been injured by the torrents of ice and water and falling buildings. A dispatch from W. P. Savery, of Reading, received at The Capital office confirms the report that the storm was most disastrous, although no particulars can be learned. A still later report confirms the report that several persons were seriously injured at Olivet.

All wires down in the district where the waterspout occurred. It is impossible to obtain further particulars at this writing.

### CUT OFF BY A RISE OF WATER.

**Tourists in Austria Hemmed in a Cavern—Efforts at Rescue.**

GRATZ, May 5.—A party of eight tourists who were imprisoned by a sudden rise of water while exploring a stalactite cavern at Souraich, near this city, on Saturday last have not yet been rescued, and all hope of saving the imprisoned people has nearly been abandoned. The renewed floods have prevented the rescue parties from approaching the spot where the tourists are supposed to be. A diver made several daring attempts to reach the people, but was upon each occasion pulled out in a senseless condition.

The aperture through which the tourists entered the cavern is now blocked with beams and boulders. There seems to be no doubt that some of the tourists are alive, as blows as if delivered with a hammer have recently been heard coming from the interior of the cavern. The authorities of this city have sent a telegraphic message to Emperor Francis Joseph entreating him to send a detachment of military engineers to the spot.

### FROM THE EX-PRESIDENT HIMSELF.

**Gen. Harrison Says He Has No Idea of Being a Candidate in 1896.**

NEW YORK, May 5.—Gen. Ben Harrison has arrived here. He says his visit to the city is on private business matters. "I have no object in coming to New York except in my professional business. I have a law case which I came here to attend to. I have been misquoted by the newspapers, and the attempt to give any political coloring to my visit here is altogether unwarranted. My law practice is taking all my time, and I have no thoughts of politics."

"Have you any idea of becoming a candidate for the presidency in 1896?"

"I have not," replied General Harrison, in emphatic manner. He said he expects to remain in New York for six or seven days. He will be joined on Monday or Tuesday by his daughter, Mrs. McKee, and Baby McKee. When he leaves here he will go home to Indianapolis, but his daughter and grandson will remain east, where they will spend the summer.

**Masons Make Fun of Mrs. Lease.**

MANKATO, Minn., May 5.—The nobles of the Mystic shrine are meeting here from all parts of this state, Iowa and South Dakota. A feature of the meeting yesterday was a remarkable parade filled with mysterious personages clothed in ancient and peculiar garb, symbolical of the rites of the temple. The feature of the parade was the mock presence of Mrs. Mary E. Lease, who claims to know the secrets of Masonry. She rode in a coach drawn by four black steeds and attended by footmen clad in various costumes.

**The Y. M. C. A. General Secretaries.**

CEDAR RAPIDS, Ia., May 5.—The session of the secretaries of the Y. M. C. A. was given up to section conferences. After a number of musical selections and the appointment of a resolutions committee President John A. Coulter, of Lake Forest university, spoke on "High Ideals," and after announcements by the secretary and executive committee the conference closed with singing and prayer.

**Decatur Miners Conclude to Stop.**

DECATUR, Ills., May 5.—The miners in Decatur decided to quit working by a vote of 143 to 87. A committee was appointed to wait on Superintendent Armstrong and tell him that the men have no grievance, but will not work until the troubles in other Illinois mines have been settled. Decatur people have laid in good supplies of coal.

**Commons Not in Favor of Silver.**

LONDON, May 5.—In the house of commons Samuel Smith, Liberal member from Flintshire, moved a resolution that the government endeavor to secure a stable par for the exchange of gold and silver by international agreement. The house, however, counted the motion out without discussion.

**Illinois Gerrymander Case.**

DANVILLE, Ills., May 5.—Attorney General Moloney, of Springfield, and Delos P. Phelps, chairman of the Democratic state central committee, have arrived here to defend the gerrymander case which comes up today. It is understood they will ask for a continuance for ten days.

**At the Clearing Houses.**

NEW YORK, May 5.—Bank clearings at the principal cities of the country for the week footed up $955,219,455, a decrease of 30.9 per cent. as compared with the amount for the corresponding week last year.

**Death of a Prominent Prohibitionist.**

CHICAGO, May 5.—C. G. Hayman, prominent prohibitionist, died here yesterday, aged 71.

THOMAS ROBERTS

### ABBREVIATED TELEGRAMS.

Farraro, the anarchist tried at London, was given twenty years in prison, and Tolti ten years.

The Texas state treasury is practically empty, and there is a probability that the state will default the interest on its bonds this year.

Obituary: At St Joseph, Mich., Henry Edick, aged 104. At Brooklyn, "Bob" Ferguson, the veteran ball player and umpire. At Sharon, Pa., William Ritchie, the astronomer.

A terrific boiler explosion occurred in the Waitz rendering factory at Hammerbrook, near Hamburg, killing five men and fatally injuring seven.

The Chilian papers are loud in praise of the late Ricardo Trumbull, the Chilian of American parentage who died early in February.

Ecuador and Peru are now declared to be in perfect accord, all differences having been settled.

William Whalen, of St. Peter's mine fame, has been convicted at St. Louis of obtaining money by false pretenses in that he floated, by untrue representations, stock in absolutely valueless mines. The sentence imposed is four years in the state prison. Whalen secured nearly $300,000 from gullible investors.

The Spanish government has just sold for old junk the historical corvette Tornado, which captured the American filibustering steamer Virginius in 1873.

The temperance people of England have inaugurated a lively war against barmaids.

The 4-year-old daughter of T. L. Bond, of Madison, Fla., while gathering eggs in the barn, was bitten seven times by a moccasin snake hid in one of the nests. She died soon after.

Illinois Prohibitionists have nominated Dr. J. G. Evans, of Abingdon, for United States senator; J. W. Puterbaugh, of Mackinaw, for state treasurer, and N. T. Edwards, of Kewanee, for superintendent of public instruction.

The large wholesale and retail drapery, carpet, curtain, upholstery and cabinet stores of Arnott & Co., at Dublin, have been destroyed by fire. Loss, $1,000,000.

The First National bank of Sedalia, Mo., has closed, expecting to pay it debts in full.

A strange green worm measuring from a quarter to half an inch in length has lately made its appearance near Huntingdon, Pa., among the fields of growing clover. They appear in countless numbers, and when once they attack a clover field they continue in their destructive work until every vestige of the blossom and leaves is eaten up.

The total registration of Chinese in California under the Geary law is 65,000.

"Industrials" at Puyallup, Wash., did not exactly seize a train, but swarmed aboard in such numbers that the trainmen could do nothing with them. The train has been side tracked.

**Marriage Contrary to Public Policy?**

SPRINGFIELD, Ills., May 5.—In the Sangamon circuit court in a mandamus suit brought by the National Marriage Endowment association for a writ of mandamus to compel the secretary of state to issue a license to incorporate the association, Judge Creighton sustained the demurrer of the secretary of state, and held that the association was organized for a purpose contrary to public policy. This probably disposes of the matter.

**Strikers Make a Demonstration.**

HILLSBORO, Ills., May 5.—A delegation of strikers from Pana, Coffeen and other places visited the Hillsboro mines to induce the men to go out. They paraded the streets with a band of music. All but a very few men here desire to go to work, but seem to be intimidated. The sheriff, at the request of the mine owners, has summoned a posse of 100 citizens.

**The Weather We May Expect.**

WASHINGTON, May 5.—The following are the weather indications for twenty-four hours from 8 p. m. yesterday: For Indiana—Cloudy weather; warmer in northern portion; southerly winds. For Illinois—Cloudy weather; warmer in northern and extreme southern portions; southerly winds. For Lower Michigan—Fair, warmer weather; variable winds. For Upper Michigan—Partly cloudy weather; variable winds. For Wisconsin—Partly cloudy weather, preceded by showers in extreme western portion; warmer in eastern portion; southerly winds. For Iowa—Cloudy weather, with showers in southern portion; warmer in eastern portion; southerly winds.

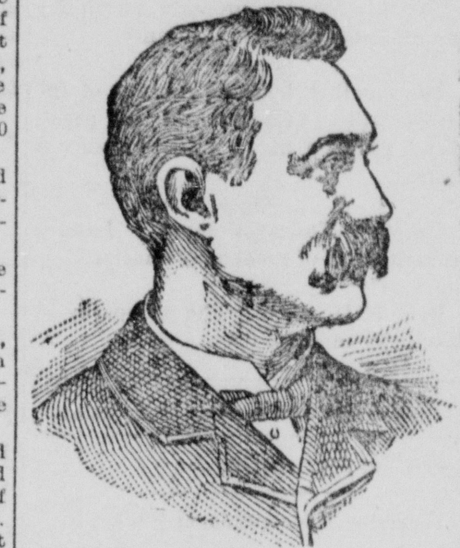
### HE LEADS THE MINERS.

**Enormous Power and Influence Wielded by John McBride.**

President John McBride of the United Mine Workers of America, at whose order 200,000 coal miners some days ago quit work with one accord, is the executive head of one of the most powerful labor unions in the United States. No better evidence of the strength and widespread distribution of its influence need be adduced than is furnished by a few of the figures showing the number of men who went out in the principal centers of the coal industry. In Pennsylvania there were 50,000; in Illinois, 28,000; in Ohio, 26,000; in Alabama, 8,000, and in Tennessee, Kentucky, West Virginia, Indiana, Michigan, Iowa and Indian Territory enough to swell the number somewhat beyond the grand total of 200,000.

President McBride has the confidence of these men because he is one of them, and he is their leader because of the confidence they have in his ability and judgment. He



JOHN M'BRIDE.

began to work in the Ohio coal mines when he was only 9 years of age and at 16 was admitted to membership in the Miners' union. He had been a member of the union for 13 years when in 1883 he was unanimously elected its president, which position he filled for four successive years.

Mr. McBride was temporary chairman of the convention which met in Indianapolis in 1885 and formed the National Federation of Miners and Mine Laborers of the United States and Territories and was active and influential in that organization so long as it lasted. When the present organization, the United Mine Workers of America, was formed in 1890 by uniting the National Protective union and National Trades assembly, No. 135, of the Knights of Labor, both of which organizations were composed of coal miners, Mr. McBride was elected chief executive and has ever since held the dual position of president and national master workman. At the convention of the National Federation of Labor in Chicago last winter he was a candidate for the presidency and developed the first really formidable opposition Mr. Gompers ever met in that organization.

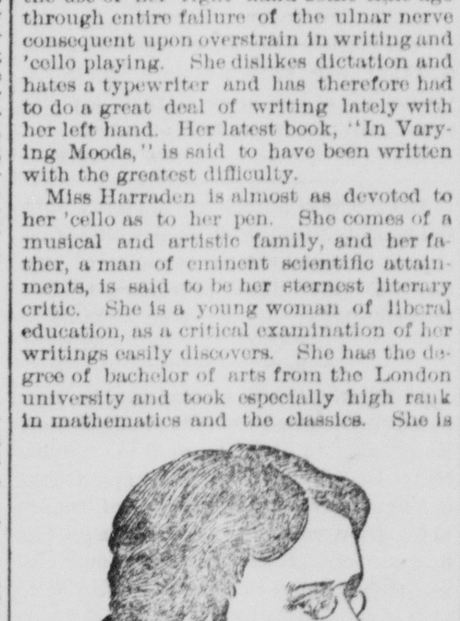
Mr. McBride takes an active interest in Ohio politics. He represented Stark county in the legislature in 1883 and 1885 and was recognized as one of the leaders on the Democratic side. Governor Campbell appointed him state commissioner of labor, and in 1886 he was the Democratic candidate for secretary of state. He is a native of Ohio and was born in Wayne county July 25, 1854.

### A NEW NOVELIST.

**Beatrice Harraden Made a Great Success With "Ships That Pass In the Night."**

Miss Beatrice Harraden, the author of "Ships That Pass In the Night," arrived in New York from England the other day on her way to California, where she intends, by advice of her physician, to spend several months on a fruit farm. She lost the use of her right hand some time ago through entire failure of the ulnar nerve consequent upon overstrain in writing and 'cello playing. She dislikes dictation and hates a typewriter and has therefore had to do a great deal of writing lately with her left hand. Her latest book, "In Varying Moods," is said to have been written with the greatest difficulty.

Miss Harraden is almost as devoted to her 'cello as to her pen. She comes of a musical and artistic family, and her father, a man of eminent scientific attainments, is said to be her sternest literary critic. She is a young woman of liberal education, as a critical examination of her writings easily discovers. She has the degree of bachelor of arts from the London university and took especially high rank in mathematics and the classics. She is



MISS BEATRICE HARRADEN.

an ardent advocate of the higher education for woman and an earnest supporter of the right of her sex to the ballot on a perfect equality with man.

"Ships That Pass In the Night" is a wonderful book to have come from a woman's pen if we measure it by the gauge of most other books that women have written. Her style is less distinctively feminine than that of any of the other women writers who have become prominent of late, but it has its feminine characteristics just the same, its passages that a man could not have written, though it is pervaded by a broad thoughtfulness that is very suggestive of what is called masculinity in literature. A keen sense of humor lurks about its pathos, too, and there is nothing mawkish about its sentimentality. Miss Harraden means to write another book while in California.

**He Has a Lazy Heart.**

It is generally supposed that when a man's heart makes less than 40 beats a minute death will soon follow unless restoratives are applied, and yet Thomas Lyons of Benton Harbor, Mich., has lived over a year with a heart whose pulsations have wavered between 18 and 23 a minute. The man works in his shop almost every day.

The job department of THE TELEGRAPH has just received a full sample line of elegant and handsomely embossed cards and stationery, of very latest styles, especially designed for graduating classes and literary society invitations. Call and see them and get prices.

Something wrong when you tire too easily. Something wrong when the skin is not clear and smooth. Something wrong when the Blood is impure. Everything right when you take De Witts Sarsaparilla It recommends itself. D. S. Horton, druggist. d&w

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

What makes a house a home? The mother well, the children rosy, the father in good health and good humor. All brought about by the use of De Witt's Sarsaparilla. It recommends itself. For sale by D. S. Horton, druggist. d&w

### Remarkable Cure of Rheumatism.

One of our customers who had been troubled with rheumatism for a number of years was cured by one 50 cent bottle of Chamberlain's Pain Balm. We consider it the best preparation in the market for that disease. J. C. CASTO & SON, Druggists, Jackson C. H., W. Va. Persons troubled with rheumatism should give this remedy a trial. One applican relieves the pain. For sale by E. M. Bonnell & Co., Druggists.

"Orange Blossom" is safe and harmless as a flax seed poultice. Any lady can use it herself. Sold by D. S. Horton, druggist. 4

De Witt's Sarsaparilla is prepared for cleansing the blood from impurities and disease. It does this and more. It builds up and strengthens constitutions impaired by disease. It recommends itself. For sale by Tillson & Hayday, druggist. d&w

Soft coal that burns as clear as wood is nice, and Pitcher sells it. dw

### Chamberlain's Cough Remedy the Best.

LOCKEFORD, CAL., April 21, 1894.

Having been troubled with frequent colds during the past few years, I have from time to time used the various cough medicines in common use. I have arrived at the conclusion that Chamberlain's Cough Remedy is the best, and now use it in preference to any other. ASA WARDROBE.

This remedy will cure a severe cold in less time than any other treatment. It loosens a cold, relieves the lungs, aids expectoration and effects a permanent cure. It is also without an equal for croup and whooping cough. For sale by E. M. Bonnell & Co., Druggists.

"Orange Blossom" the common sense Female Remedy, draws out pain and soreness. Sold by D. S. Horton, druggist. 3

If dull, spiritless and stupid; If your blood is thick and sluggish; If your appetite is capricious and uncertain. You need a Sarsaparilla. For best results take De Witt's. It recommends itself. For sale by D. S. Horton, druggist. d&w

### A Timely Bit of Advice.

In these times of grip and pneumonia it is of great importance that we should know where to look for a safe and sure remedy. A slight cold may become a serious one, the scarcely noticeable pain in the chest is too often the forerunner of pneumonia. The first cough many lead to consumption (a cough is always dangerous.) Never neglect a cold or cough for even one day, but get at once, as a safe and sure remedy, Kemp's Balsam, the best cough cure, which is recommended on all sides. It should be kept in the house regularly to avoid delay when needed. It is sold at all the drug stores. d&w

REMEMBER there are hundreds of brands of White Lead (so called) on the market that are not White Lead, composed largely of Barytes and other cheap materials. But the number of brands of genuine

**Strictly Pure White Lead**

is limited. The following brands are standard "Old Dutch" process, and just as good as they were when you or your father were boys:

"Southern," "Red Seal," "Collier," "Shipman," "Fahnestock."

FOR COLORS.—National Lead Co.'s Pure White Lead Tinting Colors, a one-pound can to a 25-pound keg of Lead and mix your own paints. Saves time and annoyance in matching shades, and insures the best paint that it is possible to put on wood.

Send us a postal card and get our book on paints and color-card, free; it will probably save you a good many dollars.

NATIONAL LEAD CO.
Chicago Branch,
State and Fifteenth Streets, Chicago.

# CASTORIA

**for Infants and Children.**

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"The use of 'Castoria' is so universal and its merits so well known that it seems a work of supererogation to endorse it. Few are the intelligent families who do not keep Castoria within easy reach." CARLOS MARTYN, D. D., New York City. Late Pastor Bloomingdale Reformed Church.

Castoria cures Colic, Constipation, Sour Stomach, Diarrhœa, Eructation, Kills Worms, gives sleep, and promotes digestion, Without injurious medication.

"For several years I have recommended your 'Castoria,' and shall always continue to do so as it has invariably produced beneficial results." EDWIN F. PARDEE, M. D., "The Winthrop," 125th Street and 7th Ave., New York City

THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK.

**Children Cry for Pitcher's Castoria.**

**A RETIRED BUSINESS WOMAN.**

**A Page From Her History.**

The important experiences of others are interesting. The following is no exception: "I had been troubled with heart disease 25 years, much of that time very seriously. For five years I was treated by one physician continuously. I was in business, but obliged to retire on account of my health. A physician told my friends that I could not live a month. My feet and limbs were badly swollen, and I was indeed in a serious condition when a gentleman directed my attention to Dr. Miles' New Heart Cure, and said that his sister, who had been afflicted with heart disease, had been cured by the remedy, and was again a strong, healthy woman. I purchased a bottle of the Heart Cure, and in less than an hour after taking the first dose I could feel a decided improvement in the circulation of my blood. When I had taken three doses I could move my ankles, something I had not done for months, and my limbs had been swollen so long that they seemed almost putrified. Before I had taken one bottle of the New Heart Cure the swelling had all gone down, and I was so much better that I did my own work. On my recommendation six others are taking this valuable remedy."—Mrs. Morgan, 569 W. Harrison St., Chicago, Ill.

Dr. Miles' New Heart Cure, a discovery of an eminent specialist in heart disease, is sold by all druggists on a positive guarantee, or sent by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid. It is positively free from all opiates or dangerous drugs.

Sold by All Druggists.

**ORANGE BLOSSOM**

Is as safe and harmless as a flax seed poultice. It acts like a poultice, drawing out fever and pain, and curing all diseases peculiar to ladies.

"Orange Blossom" is a pastile, easily used at any time; it is applied right to the parts. Every lady can treat herself with it.

Mailed to any address upon receipt of $1. Dr. J. A. McGill & Co. 4 Panorama Place, Chicago, Ill.

Sold by D. S. HORTON

**PATENTS**
CAVEATS, TRADE MARKS
COPYRIGHTS.

**CAN I OBTAIN A PATENT?** For a prompt answer and an honest opinion, write to MUNN & CO., who have had nearly fifty years' experience in the patent business. Communications strictly confidential. A Handbook of Information concerning Patents and how to obtain them sent free. Also a catalogue of mechanical and scientific books sent free.

Patents taken through Munn & Co. receive special notice in the Scientific American, and thus are brought widely before the public without cost to the inventor. This splendid paper, issued weekly, elegantly illustrated, has by far the largest circulation of any scientific work in the world. $3 a year. Specimen copies sent free.

Building Edition, monthly, $2.50 a year. Single copies, 25 cents. Every number contains beautiful plates in colors, and photographs of new houses, with plans, enabling builders to show the latest designs and secure contracts. Address MUNN & CO., NEW YORK, 361 BROADWAY.

Name.....

Address.....

—At the concert at the Congregational church next Tuesday night, everything is in readiness for one of the best concerts ever held in the two cities. With Goldsbury, the great humorist and impersonator, Miss Richards and Horace Diller of Sterling to sing, and J. E. Maynard of Dixon in banjo and guitar solos it is sure of being a marked success.—Sterling Standard.

—Harper's Weekly, of this date, contains an article covering more than a page, written by Murat Halstead, devoted to Hon. Robert R. Hitt, of Mt. Morris, representative in Congress of the Sixth Illinois District. It is embellished with a well executed portrait of Mr. Hitt, drawn from life by George W. Breck, and a page of his stenographic report of the immortal Lincoln's speech made in Chicago on March 1 1859. The article is a brief biographical sketch of Mr. Hitt with reminiscenses of his connection with Lincoln, Douglas and other giants of a past generation.

—Some days ago George Canfield, of Savanna, Ill., a brakeman on the C B. & N., met with a horrible death in the yards of the company at Oregon, Illinois, while coupling cars. He was pinned between the two moving cars as they jammed together, and it required fully ten minutes to extricate him. He screamed only once and his death cry was heard clear down to the depot. He was crushed sideways through the chest, the blood and air coming out through the muscles of his breast and back. He lingered in terrible agony for several hours before death came to his relief. The ribs were driven in and smashed from the spine.

—Some honest, well-informed Republican ought to at once tell the political editor of the Standard that the McKinley bill has not been repealed, and the hard times of the past two years are the legitimate results of "triumphant Republicanism" long drawn out.—Sterling Herald.

And will the Herald kindly inform its readers why the McKinley bill has not been repealed? With a free-trade president in the chair and a free-trade majority in both houses of Congress, pledged to take immediate action toward the repeal of the "robber tariff," why has its party allowed the "legitimate results of triumphant Republicanism "to be so" long drawn out?" If the Herald were an honest, well-informed Democrat it would say the hard times are the legitimate result of a fear on the part of the people that the Free-trade party would keep its promises; and that its failure to do so is a legitimate result of a fear on its own part that an attempt in that direction will only make matters worse.

### A Bad Kick.

About chore time Wednesday night, Clarence, the sixteen-year-old son of James Heaton, of Montmorency, nine miles south, endeavored to drive the horses and colts into the barn through a new opening, as the wind of Monday blew down most of the barn, necessitating a new doorway. Not obeying very well he picked up a stick and slapped one. The animal responded by a vigorous kick, one foot striking him in the face, badly smashing in the left jaw, dropping the lower jaw down over a quarter of an inch. The fracture is a bad one and it will take considerable time to heal the break.—Sterling Standard.

### A New Way to Make Butter.

Internal Revenue Collector Mize, through the commissioner of internal revenue at Washington, has just settled a dispute between the butter-makers of Illinois. Some time ago the collector began to receive complaints from butter manufacturers that many of their competitors were producing butter from a new process and thereby violating the law. The process is to subject the milk to a high degree of heat and taking from it both the cream and the curds which ordinarily go into the production of cheese. In this way much more butter can be made from a given quanity of milk than by the ancient process of churning the cream. Collector Mize sent samples of the butter thus made to Washington and the department decided that it was not a violation of the law. Pending the discussion of the case internal revenue officers seized forty packages. Many of the manufacturers in this and other dairy districts are claimed to be making butter by this process. Four times as much butter can be produced by the new process, but it frequently has the flavor of cheese about it

### Ram's Horn Philosophy.

It takes hard times to make some people thankful.

Some men seem to have been made out of dust that has gravel in it.

The poor have a thousand joys that the money of the rich cannot purchase.

The sin we are slowest to forgive is often the one we are most apt to commit.

No church is ever made a bit stronger by having an unrepentant sinner with a pocket full of money walk up and join it.

It would be a long time before the devil would get discouraged if none were preachers except those who wear long-tailed coats.

As long as a preacher knows nothing about God except what he has learned from books, it is a waste of time for him to take a text and try to preach.

When angels see church pillars on their way to the parsonage with wormy hams and crooked wood, they are probably puzzled to understand why God holds the judgment back.

There is many a church member who would be scared almost to death if he could feel for his own spiritual pulse and find out how near dead he is.

Ask any twelve-year-old boy what Mr. so-and-so said in church, and he cannot tell you; but ask him what kind of a man he is, and you will find out.

We should be better acquainted with many things if we inspected them from the proper standpoint. We should remember that objects, to be seen well, require to be viewed at an angle of 45 degrees.

Scotch manufacturers of carbon disulphide supply most of the French demand for this article, which is extensively used in the destruction of phylloxera on grapevines.

Applicants for West Point must be between 17 and 22 years of age and free from any infirmity.

### Circuit Court.

Friday p. m.—The case of the People vs Abraham Whipple for manslaughter was called for trial but on motion of defendent cause was continued to the next term of court.

Further testimony was taken in the case of People vs. Vaughan. Nine witnesses were examined on the part of plaintiff and six on the part of defendant. The case was then argued before the court. The defendant was sentenced by the Court to four years in the State Penitentiary at Joliet, the first day of each year in solitary confinment, the balance of time at hard labor.

A decree of divorce was granted in the case of Keller vs Keller.

In the case of Hewitt vs. Hoff, judgment was rendered against plaintiff for costs.

Three cases were stricken from the docket.

—Mrs. Grace Gallaher who has been visiting with her brother-in-law, Mr. Clink, returned to her home in Chicago today.

Saturday morning.—In the foreclosure case of Harrison vs. Maun motion was made and approved to apportion costs and order given from apportionment.

Master's report was filed and approved in the case of Egan vs. Gillett.

In the case of Bradshaw vs. Johnson, cause was referred to J. W. Watts as special Master to take and report proofs.

In the case of Andrew vs. Morris commissioners were appointed to set off homestead and cause referred to Master to take and report findings.

Barrett vs Geisinger referred to special Master J. F. Sanford to take and report proofs.

Ward vs. Mooney, Master's report of proofs and findings filed and approved, and decree given for forclosure and sale

Evers vs. Welty leave given defendant to amend bill.

Twenty-five cases were striken from the docket.

Court adjourned until afternoon.

### Our Diplomatic Service.

No representative in congress is better equipped in the line of statesmanship which involves questions of international law than Mr Hitt, of this congressional district, therefore in the debate recently in the House of Representatives on the Diplomatic and Consular bill what he had to say attracted much attention. He called attention to the mistake of the administration and the party in power in conducting the foreign office which indicated that he had not spent his time as assistant secretary of State and a long season in the foreign plenipotentiary service without profit. Then he touched upon home political "reforms" as connected with the foreign office, and his sarcasm was worthy of a John Randolph or a Thad Stevens.

Mr. Hitt introduced the Van Alen incident and commented upon it effectively. He recalled Van Alen's gift of money to the Democratic financial agent in 1892, Mr. Whitney, and that gentleman's earnest and successful demands upon the President that Mr. Van Alen be rewarded with the Italian Embassy for coming to the rescue of the party "when calls were many and friends were few."

The woe of Horace White and other mugwumps was delicately and sorrowfully touched upon. The particularly fine hit he made was that while Mr. Whitney was running around raising great contributions and great expectations the presidential candidate was delivering himself upon the stump of solemn and ponderous homilies about the corrupt use of money in elections, and was actually pointing out that an Administration put into office by a "debauched suffrage" is "but the mere semblance of a free government," which can "no longer defend the rights of all because rights will be forgotten in the capricious bestowal of favors," etc., etc. But theory and practice does not work well in politics, as was ably illustrated by Mr. Hitt.

### Street Cars on Our Bridge.

We received the following communication from Woosung this morning with the assurance that it voices the sentiments of a large portion of the rich farming community north of us, from whom Dixon tradesmen receive a very considerable per cent. of their patronage:

EDITOR TELEGRAPH:—

Referring to your article on the above mentioned subject in your paper of the 2nd, also one signed "North Sider" and your reply to same in your paper of the 3rd, allow me to thank you most earnestly for the stand you have taken in this matter. I have often noticed and remarked to others how comparatively little the west sidewalk to your bridge is used as compared with the east, and from my past experience I do not think that taking one of the sidewalks for the electric cars would over-crowd the other as this class of traffic is bound to be largely on the decrease after the cars are in operation. "North Sider" says "our horses will have to get accustomed to these things the same as ourselves,' which is very true, but under entirely different circumstances than horses coming in from the country. People living in town have the advantage of driving their horses around so as to meet the cars on streets where they will have ample room for passing and handling their horses should they become frightened at the cars; in this way the horses will soon become accustomed to them so there will be but little danger of meeting a car on the wagon road of the bridge; but how about our country friends? They come to town once a week, for instance, or four times a month. In those four times the great majority of them, being farmers, would probably not drive the same horse twice, now what will happen when our friend gets about half way across the bridge and meets a car for the first time. He has his wife and children with him; or even worse he is too busy to go to town himself and has to send his wife or child alone. This it seems to me is a matter of very great importance, and one that should have the very best and most careful handling for and against before a deciding step is taken, as I do not think there is a person in Dixon that will deny that the people of the large surrounding country on the north side of the river are entitled to just consideration in such a matter from the resident citizens of your city.

COUNTRY FRIEND.

### YOUNG PEOPLE'S COLUMN.

E. M. Austin, of Litchfield, Ill., writes that their society have a pause committee who prepare little slips that they give out among their members when they think they are needy of such.

1. Should a pause occur in our meeting tonight, will you kindly offer promptly a short prayer, and oblige,
The Pause Committee.

2. Should a pause occur in the meeting tonight, will you kindly offer a brief comment on the topic, and oblige,
The Pause Committee.

As these are written on different slips and given to different persons it not only accomplishes the purpose of stopping pauses, but also gives variety to the meeting.

The Y. P. S. C. E. of Christ's church, Litchfield, Ill., is in a flourishing condition, probably because it brings new ideas, new methods and new life into its work, as one of its members wrote. "We have a live Prayer Meeting Committee who never give us two meetings alike."

Epworth League topic: Psa. 19, The Excellency of God's Law. This psalm teaches us that the starry heavens above, the moral law within and the perfect law in the Scriptures unite to glorify God. It gives us a motto for life, "Let the words of my mouth and the meditation of my heart be accepted in thy sight, O, God, my strength and redeemer." Mrs. Waite, leader.

May 13th being the anniversary of the Epworth League, Chapter 3392 of the Dixon M. E. church will celebrate with an anniversary sociable Friday evening, May 11, in the basement of the church.

May this sociable promote sociability and replenish the empty treasury.

The monthly business meeting of the League will be held in the League parlor May 7, at 7:30 p. m. A full attendance is desired.

Christian Endeavor topic: Lessons from the lives of great missionaries.

B. Y. P. U. topic: The sympathy of Jesus. John 11:35.

### Amusement, Business and Local Items.

Clip out your coupons.

### A Famous Clairvoyant.

Prof. J. M. Bate, of New York, a Clairvoyant well-known to the eastern public, is in our city. He is recognized by the press as the foremost and most able member in his profession, and has the reputation of having convinced more people of occultism than any other clairvoyant or life-reader living. The Peoria Journal of April 2nd, says of him: "Prof. Bates continues to surprise all of our citizens who call upon him, with his remarkable power as a clairvoyant. Many of our citizens have received remarkable tests, and all those who call to see him will not regret it. Prof. Bate has engaged pleasant rooms at 215 Hennepin avenue, between Second and Third streets, where he will receive from 9 a. m. to 9 p. m. daily.

### Our Grandmothers' Way

Was to steep roots and herbs and use it every night. We can do the same by using Parks' Tea. Nothing acts as promptly and without discomfort. Not a pill or a cathartic but moves the bowels every day. Sold by Tillson & Hayden. w*
